Using past trends combined with local knowledge, projections for K-12 standard (regular) school enrolment totals 13,700 FTE. This shows a growth rate of 3% or 403 FTE which is a slightly less than previous years. English Language Learners/English as a Second Dialect (ELL/ESD) enrolment numbers are flattening, as is Indigenous Education. The Deputy Superintendent also indicated that enrolment forecasting in light of the geopolitical environment, economic situation and federal government policy changes on immigration all add to the uncertainty and inability to forecast to the same level of confidence as previous years. Projections for this year used a variety of data points both internal and external along with Ministry of Education data and trends.

The Board acknowledged the work around projections and the value of doing groundwork to corroborate the data.

Cendra Beaton, Chair
Board of Education
School District No. 62 (Sooke)
Email: cbeaton@sd62.bc.ca

Dear Cendra Beaton:

Thank you for your letter of January 20, 2025, regarding cybersecurity challenges in BC school districts. I share your concerns about the increasing cyber threats to school districts and the need for enhanced cybersecurity safeguards for students, staff, and families.

To support boards of education in their development and implementation of adequate cybersecurity policies the Ministry of Education and Child Care provides school districts with resources and training to maintain appropriate security safeguards and ensure a safe digital learning environment. Cybersecurity services are co-governed in partnership with school districts to ensure that security services meet each district's unique needs, and that appropriate policies and standards are in place.

The Ministry has made significant investments in cybersecurity to help districts improve their security postures and implement appropriate measures. The Ministry collaborates with school districts, cybersecurity professionals, [CyberBC](#), and [Focused Education Resources](#) to ensure that district and school staff are equipped with the necessary tools and knowledge to protect data and critical network infrastructure.

The Ministry funds and manages the provision, support, and maintenance of firewalls and licensing for 60 school districts, and provides guidance and support to school districts in the event of a cyberattack. It also offers oversight for a team of cybersecurity professionals to provide services to the sector.

.../2

Through grants from the Ministry, Focused Education Resources offers a range of cybersecurity services to school districts. These services include cybersecurity assessments and audit services, access to cybersecurity specialists, an incident response retainer, security awareness training, ransomware prevention backup solutions, security workshops to adopt best practices, security policy templates, data protection and information management, and a Multi-Factor Authentication toolkit.

The Ministry of Citizen Services offers a program called [CyberBC](#) that provides various resources to help prevent, detect, and respond to cyberattacks. These resources include templates and tools, security frameworks such as Defensible Security, policy and standard templates, and corporate supply agreements available to school districts.

Cybersecurity is an ever-changing landscape that requires collaboration between school districts, the Ministry, the private sector, and non-profit organizations to address the threats to the digital infrastructure and keep student, staff, and district information safe.

Thank you once again for sharing your concerns. The Ministry remains committed to working with districts and partners to ensure the highest standards of cybersecurity for our school districts. Should you have any further questions or require additional information, please do not hesitate to contact Jennifer Wray, Assistant Deputy Minister and Chief Information Officer, by email at Jennifer.wray@gov.bc.ca.

Sincerely,

Lisa Beare

AND INTERVENTION	

ADMINISTRATIVE REGULATIONS**1. Background**

These regulations outline a comprehensive approach to supporting a safe, healthy and caring school environment; one free from the use of alcohol and other drugs. The district shares responsibility with students, parents and the community for addressing problems associated with substance use.

The District prohibits the use of intoxicants by students while on school property or at school-sponsored/related events. The district supports a proactive and comprehensive approach to substance use which emphasizes prevention, early intervention, counselling, and disciplinary actions.

The Federal Cannabis Act made it legal for adults to purchase, possess, use, and grow certain amounts of cannabis in Canada. In BC, the government enacted the Cannabis Control and Licensing Act (CCLA) and the Cannabis Distribution Act, which regulate how cannabis may be sold, distributed and consumed in BC. The legislation includes significant restrictions aimed at preventing access to cannabis by persons under the age of 19. In particular, the CCLA prohibits the consumption of cannabis in or on school property, or within a prescribed distance from school property.

2. Definitions

Intoxicant - ~~illicit or non-medical drugs, alcohol,~~ **drugs prohibited or restricted under the *Food and Drugs Act, Cannabis Control and Licensing Act, Cannabis Distribution Act and the Narcotic Control Act,* and** ~~or other inebriating substances including~~ **such as** misused prescription drugs.

Under the influence of - indicating evidence of having consumed an intoxicant or exhibiting a degree of intoxication while under school jurisdiction.

In possession - having an intoxicant on ~~his/her~~ **the student's** person or elsewhere under ~~his/her~~ **their** control (e.g. in a locker, or a vehicle) while under school jurisdiction.

School Function: Any assembly, meeting or gathering of students, or student field trips for school purposes under the supervision or direction of the Board, representatives of the Board, teaching staff, supervisory staff, or authorized volunteers in the course of their duties.

3. Procedures

- 3.1 A breach of this policy shall **follow trauma-informed practices to determine the most appropriate intervention for students and normally may** result in a period of suspension from school; however, in keeping with the Board's primary goal of education, the length of the suspension will be determined, in part, through reference to the student's willingness to enrol in, and follow through with, a program of substance abuse education and/or counselling. Community service may also be considered in conjunction with suspension **the principles of equity and fairness**. All incidents involving alcohol or other drugs shall be reported to the parent(s)/guardian(s) of the student and may be reported to the police.

3.2 The District will:

- a. **Provide students with age-appropriate instruction on the prevention of substance use.**
- b. **Encourage and support the identification of early intervention into problems of substance use by students through utilization of school as well as community resources.**
- c. **Provide fair and equitable response procedures and consequences regarding substance related infractions.**
- d. **Provide continued support for the services provided by school-based support personnel.**
- e. **Provide appropriate support and intervention, within its resources, to students who possess/use and/or distribute drugs and alcohol. The focus will be the early identification of at-risk students who display irregular behaviour, inappropriate decision-making, and declining personal performance. Intervention will be made available to at-risk students and/or first-time offenders by counsellors and community agencies, as appropriate. Positive and confidential help will be given to students who voluntarily seek assistance in overcoming substance use and problems.**

3.3 The principal of each school will advise all staff that they have a responsibility:

- a. For the immediate reporting to a school administrative officer **principal or vice-principal** of any student who is suspected of being in **direct or indirect** possession of, or having consumed an intoxicant while under school jurisdiction.
Note: Indirect possession would include having another person store or possess the substance.
- b. **When in the course of their duties**, identifying students who, as a result of irregular behaviour patterns and/or declining personal performance over a reasonable period of time, are suspected abusers **of using intoxicants**. Such identified students should **also** be brought to the attention of the school-based team.
- c. **When a principal/vice-principal determines that a student's substance use or other risk factors may put the student at extreme risk of harm, to report the concern to the Ministry for Children and Family Development (MCFD) – child protection branch, as per policy C-410, Child Abuse.**

3.4 When a school principal or vice-principal has reason to believe that a student, while attending school or involved in an official school function, is in possession of or is under the influence of a substance as defined above, the principal will:

- a. Ensure the personal safety of the student and others.**
- b. Determine an appropriate course of action. This may include disciplinary processes and/or the development of an intervention and support plan as appropriate.**
- c. Dependent on the individual circumstances and the age and grade of the student, the principal will consider the following in the development of an appropriate plan of action in consultation with counsellors and parent/guardians:**
 - i. Referral to the school-based social worker, counsellor, student engagement facilitator or other resource as may be available.**
 - ii. Referral to community agencies.**
 - iii. Suspension of five days or less, or suspension greater than five days and referral to the District Student Review Committee.**
 - iv. Notification of police when deemed appropriate by the principal.**

3.5 At least once annually at the start of the school year, school principals will inform parents/guardians in writing that school lockers are the property of the school district and, as such, are **may be** subject to search.

4. Consequences:

- a. The possession, consumption/use, sale or distribution of alcohol and/or drugs at school functions or while under the jurisdiction of the school will result in appropriate consequences pursuant to Policy and Administrative Procedures for C-309, District and School Codes of Conduct and C-319, Student Suspension.**

2. SOME PROCEDURAL GUIDELINES FOR ADMINISTRATIVE OFFICERS

DEALING WITH SUBSTANCE ABUSE/POSSESSION/EXCHANGE INCIDENTS

It is acknowledged that every case has its own peculiarities; however, the following steps provide a framework within which to deal with substance abuse/possession/exchange incidents.

~~2.1 Possession and/or Use of Intoxicant – First Offence~~

~~If a student is found in possession or under the apparent influence of an intoxicant, the staff member shall be responsible for immediately reporting the incident to an administrative officer who shall:~~

- ~~a. make a judgement as to whether the student needs emergency assistance and advise the parent/guardian of the situation.~~
- ~~b. detain the student, if emergency assistance is not indicated, to ascertain the nature of the problem and make the student aware of the procedures to be followed as outlined in the Board policy.~~
- ~~c. if considered appropriate, inform the police of the problem.~~
- ~~d. whether or not the police are involved but where a violation has occurred, the administrative officer shall consider suspension of the student for a period of three to ten school days. Only in exceptional circumstances would the suspension be fewer than three school days. The length of suspension should be determined in light of the student's/family's willingness to be involved in a community based substance abuse education/counselling program. Community service may also be a factor considered in setting the length of suspension.~~

~~3. Possession and/or Use of Intoxicant – Second and Subsequent Offences~~

~~A second occurrence of intoxicant possession or use shall normally be referred to the District Discipline Committee in conjunction with a suspension of indefinite length.~~

~~5. Selling, Supplying, or Making Available Intoxicants~~

~~Because the health and safety of all students is a prime concern of the Board of Trustees, selling, supplying, or making available intoxicants is deemed to be a very serious breach of this policy.~~

~~5.1 Where there are reasonable grounds for suspecting that a student is in possession of a substance purported to be an intoxicant for the purposes of selling, supplying, or making available while under the jurisdiction of the school, the principal should normally suspend the student indefinitely, inform the parents/**guardians**, refer the student to the District Discipline **Student Review** Committee and report the incident to the police and to the Superintendent of Schools **or designate**. The District Discipline Committee will convene at its earliest convenience.~~

~~4.2 If the offender is charged with trafficking **a crime related to selling, supplying or making available drugs or alcohol**, either on school property or when under the jurisdiction of the school, the Discipline **District Student Review** Committee will consult with **police and** the Crown Prosecutor's office prior to determining the student's educational placement; bearing in mind the Board's concern with the health and safety of all students.~~

~~6. When any intoxicant comes under the control of an administrator **a principal/vice-principal** in dealing with an incident covered by this policy, the police may be contacted to determine the disposal of the seized intoxicant.~~

All disposal of seized intoxicants should be witnessed.

~~7. Police Searches in Middle and Secondary Schools~~

~~Because the Board strongly believes that schools should be "drug-free zones", the Board authorizes the periodic searching of middle schools and secondary schools for drugs by police and trained dogs. These searches are more concerned with deterrence than apprehension.~~

~~7.1 At least once annually at the start of the school year, school principals will inform parents/guardians in writing that school lockers are the property of the school district and, as such, are subject to search.~~

~~7.2 Parents/guardians will be informed at the start of each year that, as part of a deterrence program and to create a drug-free zone at our schools, there will be periodic searches for drugs at the school by police and trained dogs.~~

~~7.3 These searches will normally take place outside of regular school hours and must have a school administrator accompanying the police in their search.~~

~~7.4 Where the trained dogs indicate that a locker likely contains drugs, the school administrator will note the locker number and, on the next school day, will ask the student to whom that locker is assigned to open the locker for a search. The school administrator will ensure there is a second school district employee present as a witness. Should the student to whom the locker is assigned not be present, then the school administrator, in the presence of another school district employee as a witness, will open and search the locker.~~

~~7.5 If drugs (or alcohol) are found in the locker, the school will follow the procedures set out earlier in this Regulation regarding consequences for the student(s) concerned. In accordance with this Regulation, such consequences may involve a report of the incident to the police for their action independent of such consequences as may flow from school district action.~~

~~7.6 It will be normal practice following each search by the police and trained dogs for a school/RCMP press release to inform the community.~~

SCHOOL BOARD POLICY**PURPOSE**

The Board is committed to providing safe and caring environments in which all learners can achieve academic excellence, personal growth and responsible citizenship.

Safe and caring school environments are free of acts of:

- Bullying, harassment, threat and intimidation;
- **Inappropriate use of electronic devices;**
- Violence of any form;
- Verbal, physical or sexual abuse;
- **Sexual misconduct;**
- Discrimination, especially based on race, colour, ancestry, place of origin, religion, marital status, family status, physical or mental disability, sex, sexual orientation or age (BC Human Rights Code);
- Theft, and
- Vandalism.

Safe and caring school environments do not tolerate the presence of:

- Intoxicating substances;
- Weapons and explosives, nor
- Intruders or trespassers.

Safe and caring school environments:

- **Respect the rights of individuals, including not engaging in discriminatory conduct based on race, colour, ancestry, place of origin, religion, marital status, family status, physical or mental disability, sex, sexual orientation, gender identity or expression, and age.**

The effective management of student discipline is a necessity to establish safe and caring environments that foster student learning needs. Prevention and intervention strategies applied at the school level and supported at the District level are the foundations of a successful discipline program. Clear policy and regulations are essential to set standards and provide for consistency among all schools and for all students.

Responsibility for an effective discipline program is shared among many partners including the District, schools, students, parents/guardians, community groups, social agencies and the RCMP. The Board

promotes understanding and acceptance of the interactive roles required to achieve safe and caring schools. **When criminal allegations are made against a student, staff will not investigate the circumstances until specific directions are received from the investigative authority (e.g. police or social worker).**

SCHOOL BOARD POLICY

DISTRICT CODE OF CONDUCT

The Board promotes clearly defined behavioural expectations that represent the highest standards of respectful and responsible citizenship and lead to a culture of non-violence among all persons in all schools and at all school-authorized events and activities.

To this end, the Board expects that persons will:

- Comply with all applicable federal, provincial and municipal laws, and with district policy and regulations.
- Value and encourage learning and working environments that are inclusive and respectful of the diverse social and cultural needs of our community.
- Treat one another with dignity and respect.
- Refrain from engaging in or encouraging acts of violence of any form.
- Show care and regard for school property and the property of others.
- Take appropriate measures to help those in need, and
- Respect those in positions of authority.
- **Comply with the BC Human Rights Code**

School Code of Conduct

Consistent with the *School Act*, sections 85(1.1), 168(2) (s.1), each school must establish a Code of Conduct consistent with the District Code of Conduct and other SD62 schools of the same level. Each school must also implement and enforce the code of conduct within their school with the support of school staff and the district.

Consequences for Code of Conduct infractions will be applied in a manner consistent with progressive discipline.

The student whose behaviour, in addition to being unacceptable to the Board, is unlawful, must realize that action by school district personnel may include referral of the matter to appropriate authorities as well as disciplinary action at the school and/or district level.

Progressive Discipline

Progressive discipline is a whole district/school approach that utilizes a continuum of prevention programs, interventions, supports and consequences to address inappropriate student behaviour as defined in the district and school Code of Conduct and to build upon strategies that promote and foster positive behaviours.

When inappropriate student behaviour occurs, consequences are applied within a framework that shifts the focus from one that is solely punitive to one that is both corrective and supportive. The range of consequences chosen are developmentally and socio-emotionally appropriate in order to assist students in learning and to reinforce positive behaviour.

In considering the most appropriate response, school staff take into consideration:

- The particular student and circumstances.
- The nature and severity of the behaviour.
- The impact on the school climate, including the impact on students or other individuals in the school community.

Progressive discipline responses may range from strategies that promote positive student behaviour, including but not limited to:

- Asking a student to stop the inappropriate behaviour.
- Naming the behaviour and explaining why it is inappropriate and/or disrespectful.
- Asking the student to correct the behaviour, engage in a restorative process, or make restitution, e.g. apologizing.
- Time-outs and/or loss of privileges.
- Detention.
- Community service.
- In-school suspension.
- Short-term out-of-school suspension.
- Long-term/indefinite suspension.
- Expulsion (as permitted under the BC *School Act*).

Draft revised Policy and Regulations C-311 "Student Attendance" are scheduled for adoption.

SCHOOL BOARD POLICY

The BC *School Act* and its attendant Regulation are explicit about each school-age student's compulsory attendance, except when excused under those exemptions permitted by law. Parents/Guardians are responsible for ensuring that school attendance requirements are fulfilled as prescribed.

The Board's primary goal is to provide an appropriate educational program for all students. In order that this goal can be realized, it is necessary that all students attend school regularly. While illness and similarly emergent circumstances necessitate some absence, students are expected to attend school during scheduled school hours.

~~The Board recognizes that the major responsibility for school attendance rests with parents and students, but it realizes that teachers, school administrators and the Board itself are also involved.~~

Because students' knowledge, skills and attitudes are enhanced through regular school attendance, schools are expected to **work closely with parents/guardians, student, and staff to** develop clear **and fair** straightforward attendance procedures **to encourage and support regular attendance**, to communicate them effectively and to enforce them consistently and fairly.

~~Finally, the Board recognizes that, in some instances, the right of a student to remain in school is forfeited when he/she fails to attend regularly and/or promptly.~~

**Agenda Item 10.1: Catchment Update: Middle School Pathway for
David Cameron Students**

Background:

School District #62 (Sooke) has constructed three new schools and two prefabricated classroom addition projects over the last 5 years. With the continued growth in student enrolment, as per Policy F-502, Catchment Areas, and Student Placement, through motion the Board directed the Superintendent, to review current pathways for schools from Elementary, Middle, and Secondary with a focus on the growth in the Westhills area and with consideration for a future catchment area for a potential new secondary school, located on the north side of highway.

"That the Board of Education for School District 62 (Sooke) direct the Superintendent to review the Spencer and Centre Mountain Lellum catchment areas per Board Policy F-502 and bring back any proposed changes to the Board for their consideration."

CARRIED

The purpose of this information note is to provide the Board with an update on progress towards catchment changes at Spencer Middle and Centre Mountain Lellum Middle schools. The phased approach over two years is being implemented for 2025/26 registrations this Spring. (2025/26 -> choice of schools and 2026/27 -> designated catchment school applies)

Context:

The growth in both the Happy Valley and Westhills neighborhoods has resulted in over capacity enrolment at the feeder middle school, Centre Mountain Lellum (CML), which has a capacity of seven hundred students. The Long-Range Facilities Plan (LRFP) projects CML's enrolment to be 839 students by 2028. Spencer Middle School currently has six portables on site which allows their enrolment capacity to reach eight hundred students. Currently they enroll 627 students. The SD62 Catchment Consultation Team and the Transportation Manager reviewed the Long-Range enrolment numbers and developed a plan to support the growth around CML with the intention to stabilize and maintain the in-

catchment seats to meet demand for several more years, through an adjustment of pathway for David Cameron students.

Currently, David Cameron Elementary student's pathway for middle school is to attend Centre Mountain Lellum Middle School. The proposed plan involves changing the pathway for David Cameron Elementary students to attend Spencer Middle School. The change of pathway for David Cameron Elementary School would result in an adjustment to the catchment areas of both Spencer Middle School and Centre Mountain Lellum Middle School. The PACs and staff in the affected schools were notified in the fall of 2024 and continue to have opportunities to send their thoughts to our Communications Manager and District Principal of Capital Planning. The change of David Cameron's pathway will help to alleviate the enrolment pressures at Centre Mountain Lellum Middle School and provide students the maximum opportunity to attend their neighborhood school.

The following guiding principles are considered in the catchment boundary/ flow of school changes:

- Follow [Board Policy F-502](#)
- Proximity to feeder schools.
- Maximize existing space in all schools.
- Long-term sustainability.
- Maximize current and future safe and active routes to schools.
- Ensure equity of opportunity and clear K-12 pathways when reviewing programs of choice.
- Minimize disruptions to students.
- Grandparent students in their own schools.
- Provide stability and a transparent process with opportunities for robust public engagement.
- Use natural boundaries as much as possible.

The following consultation goals were implemented and have been actioned:

- Clearly inform parents and staff of the proposed changes;
 - District Principal attended the following PAC/SPEAC meetings on the following dates to highlight these changes:
 - David Cameron Elementary School – October 30, 2024

- SPEAC Meeting – November 12, 2024
 - Spencer Middle School – November 27, 2024
 - Centre Mountain Lellum Middle School – December 5, 2024
- School-wide communication went out to the David Cameron Elementary School community in December 2024 through the school parent newsletter.
 - A district communication informing families of the change was posted to the SD62 website – December 2024
- Engagement with parents and staff to collect valuable input and insight;
 - Achieved through PAC meeting(s) and ongoing email correspondence.
 - Reassure parents of our School Change Request Process which allows consistency in attending an out of catchment school.
 - Support the Board in answering questions from our district partners and community.

Consultation Opportunities:

- ☐ Catch62 email: catch62@sd62.bc.ca
- ☐ PAC meetings
- ☐ SPEAC Meeting
- ☐ Parent Emails
- ☐ Social Media

Key Catchment Actions to Date:

- Current grade 5 David Cameron students have the option for the 25/26 school year to follow a middle school pathway to Centre Mountain Lellum Middle School or Spencer Middle School.
- For the 2026/27 school year, all grade 5 students from David Cameron Elementary will follow the middle school pathway to Spencer Middle School.

ENGAGEMENT

Preparing for Emergencies

After spring break, schools sent reminders to families to ensure Student Release Forms were completed and returned, along with information on designated reunification points. This is a vital component of our emergency planning, particularly for natural disasters, where power disruptions may occur. Having paper copies of student release information readily available is essential in such situations.

Our school-based PVP and Communications team, under the leadership of Associate Superintendent David Strange, are actively reviewing and refining school emergency

preparedness plans over the coming months. Their work is critical in ensuring our schools are well-equipped to respond effectively in any emergency.

Empowering Women in STEM Event

Our Career Education Department held a “Future Innovators: Empowering Women in STEM” event at Royal Bay on April 7. The inspiring evening gave students the chance to explore a variety of STEM careers through a mini career fair and a panel discussion featuring professionals such as an Environmental Scientist, Cloud Solutions Architect, Engineers, Marine Operations Specialist, and a Hardware Developer.

Dress Up as a Book Character The assembly will be a chance to see everyone's amazing costumes! 	 Community Celebrity Readers! There are some special readers coming to our school, and one of them will come to your class to read you a story! They will be arranged at different times throughout the day.	Poem or Joke in your Pocket Right before recess, we will all go into the hallways with either a joke or a poem in our pockets! We will tell the joke or read the poem to as many people as we can! 
				Early Dismissal 11:45am Many teachers will be doing a Celebration of Learning in their classrooms.
Theme Read	Hallway Read 	Buddy Read 	Flashlight Read 	Keep your eyes peeled in the main hallways of the school for special things like a Photo Booth or other Literacy Activities!

For the past 14 years, Wishart staff have hosted an amazing Literacy Week that is always a favourite for the Wishart school community. Every year, the events and approach change, but it is always a hit with students and staff. The weekly calendar above illustrates the variety of activities including a READ-O choice board that students completed over Spring Break to be entered into a

draw, teachers and staff participated in a Readers Theatre for the whole school from the book, Stephanie's Ponytail by Robert Munsch (even our principal had a role!)

Wishart staff build connections with families by having some literacy activities in the hallways during the early dismissal day and their Celebration of Learning event. Wishart staff had a "Wishart Loves to Read" photo booth complete with props, hands-on literacy station, a post card station (complete with mailbox) where students could "send" a post card to any staff member, a music and literacy station led by our music teacher, and digital games and literacy apps! This year's staff lead for the event, teacher Kristi Walkey created four brochures for parents to take home:

- Daily Reading (why is it important... and how can I find 20 minutes in my busy day?)
- Reading Comprehension (questions to ask your child before, during and after reading)
- Phonemic Awareness (what does that mean... and activities to do with your child)
- Literacy in the Car (some fun literacy/word games to do with children in the car!)

The favourite day is always the Celebrity Reader event, where local "celebrities" from around the community read to our classes including:

- RCMP School Liaison Officer, Constable Justina Webb
- Local Magician, Donald Dunphy
- Colwood Mayor, Doug Kobayashi
- SD62 Superintendent... Paul Block
- Retired Wishart Principal, Garry Manhas
- Chek News team including Stacy Ross (5pm news), Paul Haysom (6pm news) and Jessica McCool (Weather). You can see a link to their coverage here: [Wishart on Chek News](#)
- 107.3 Virgin Radio - Morning Show hosts, Bailey and Johnny. They even recorded our kids and gave a special shout out on the radio! Listen here: [Wishart on Virgin Radio](#)
- UVic Vikes Soccer Players - four players from the women's team and their community outreach person (they of course played a soccer game after they read a story with a few classes!
- We also had PFC Players, Colwood Fire Fighters and our local Baker from Royal Bay Bakery "Baker Brad" but they unfortunately had to cancel.

PEXSISEN Open House

On April 10, PEXSISEN Elementary held an Open House for families during the student-led parent conferences. The idea grew into a collaborative community event with Flourish! attending and sampling diverse cultural foods and showcasing the school gardens. Other community partners including the Intercultural Association of Greater Victoria, Victoria Immigrant and Refugee Centre Society, Island Health, BGC SVI, YMCA-YWCA Westhills, Greater Victoria Public Library, and the Westshore Parks and Recreation Centre. Students from Belmont Secondary also came to help with the art and garden stations. Families were able to see the community supports and programming available to them. The standout for all families was the Art Showcase organized by Fine Arts Teacher Mikaela Miller. The gym was transformed into a place of magic featuring art in a variety of mediums including pottery, textiles, and weaving.

Read and Ride

As we prepare to welcome new kindergarten students in September, our Early Learning and Child Care team is hosting Read and Ride sessions throughout April and May. Families can visit our website to register for the Read and Ride session at their future school. The session includes a tour of the school, a tour of a school bus and every future student will receive a free book.

Kiss & Go Now Open at Ruth King Elementary

The new Kiss & Go area at Ruth King Elementary officially opened on April 15. We are grateful to the City of Langford for their support in creating this designated pull-in zone on Matson Road for morning drop-offs. This designated area helps reduce traffic congestion and supports being more considerate neighbours by providing a dedicated drop-off zone, minimizing the need for parents to use nearby residential or business parking areas. We kindly ask that families using a vehicle to drop off students in the morning make use of the Kiss & Go area exclusively, particularly during busy traffic times.

Spring Theatre Productions

As we head into the spring, it's production time for many theatre students who have been working towards the show for most of the year. It's an opportunity to see the incredible talent in our schools, the acting, the set design, the lights, the music. If you haven't been to one of our school performances before, I highly recommend attending. Tickets can be purchased by visiting the school website or calling the school for more information.

GROWTH

School-Based Leadership Changes for 2025/26

Change is a constant in our district, and our leadership team excels at adapting and setting a positive example. In the upcoming school year, 21 schools will welcome a new principal or vice principal, bringing fresh perspectives and new ideas. These leadership transitions create exciting opportunities to enhance learning environments for students, staff, and families.

Teacher Staffing

As our district continues to grow, so does the complexity of teacher staffing allocation. The first round of staffing for the upcoming school year was completed just before spring break, with the next release scheduled for the end of May. I want to extend my sincere appreciation to Deputy Superintendent Monica Braniff for her dedication and leadership in the school staffing process. Each spring, this work requires an extraordinary effort, and I know Monica has spent many late nights and weekends ensuring everything comes together smoothly.

I would also like to recognize Windy Beadall, Acting Director of Digital Solutions; Mark Kaercher, District Principal of Capital Planning; and David Lee-Boner, Assistant Secretary-Treasurer for their contributions to this complex process. Their support has been invaluable in ensuring a smooth transition as we prepare for the upcoming school year.

With the expertise and commitment of our HR department, we are confident in their ability to continue this important work—recruiting and filling positions to support our growing district. Thank you to everyone involved for your dedication to our schools, staff, and students.
